You can then resize this object. **What It Does:** Allows you to merge your selection. You click a spot on the layer, then click and drag to combine the areas you've selected. You can also select several areas separately, then press and hold the Ctrl + click to merge them. The Clone Stamp tool is used for changing small parts of an image. When using the tool, select and clone areas of an image to add to an existing image. Use the Eraser tool for erasing unwanted areas.
